

Intensive English Program

The Intensive English Program (IEP) prepares non-native speakers of English for successful study in academic courses. Enrollment in English for Speakers of other Languages (ESOL) courses is open to degree-seeking and non-degree-seeking students. The Office of International Education and its Director coordinates the IEP with cooperation and support of the Department of Languages and Literature.

All IEP students must take the Michigan English Placement Test (MEPT) upon entrance to the program and again at the end of each semester. All IEP students will enroll in an ESOL Writing course at the appropriate level, ESOL 0151 Culture and Study Skills, and in any additional ESOL courses as deemed necessary by the IEP Director.

ESOL courses are presented at three levels of development: beginner, intermediate, and advanced. Performances on the MEPT/TOEFL/IELTS, or/and performances in previously taken ESOL classes are considered in order to determine the level of placement for each subject.

Although all ESOL coursework is transcribed, ESOL courses cannot be counted towards the hours required for a degree. Students may enroll in courses other than ESOL courses concurrently with ESOL courses with approval from the IEP Director.

For further information about the IEP and its courses, refer to the Office of International Education.
