Institutional Marks

This section includes the official Institutional Marks for East Texas Baptist University. It features the ETBU Shield Logo, University Seal, ETBU Spirit Logo, and Academic School identifiers. These marks serve as the primary visual identifiers of the University and should be used for academic, administrative, and general University communications. Consistent use of these elements helps preserve the integrity of the ETBU brand and ensures a unified representation across all platforms and materials.

**Preferred Format: Acronym, Stacked**

The institutional logo is the primary identifier of the ETBU brand and is used in all marketing and communication efforts representing the University. The preferred format includes the shield and ETBU acronym stacked over the full University name. This version should be used whenever possible. The text is typeset in Trajan Pro, and the representation of the cupola in the shield anchors the logo and serves as an iconic, recognizable connection to campus.

Why Minimum Size

The primary logo may not be reproduced any smaller than 1.25 inches in width to maintain legibility.

What NOT to do:

Do NOT manipulate the word mark in any way from the approved versions outlined in this guide. Do NOT:

- Present the logo in an unapproved color
- Present the logo in a non-brand font
- Present the logo on a background that does not provide enough contrast with the logo
- Present the logo rotated or skewed
- Present the logo with the element proportions altered in any way
- Present the logo compressed or stretched
- Present the ETBU Shield and ETBU Acronym together without also including "East Texas Baptist University"

This secondary logo serves as an alternative identifier for the ETBU brand, designed for use in contexts where a simplified or more compact version is appropriate. The preferred format for the secondary logo includes only the ETBU acronym in a stacked arrangement, without the shield. This streamlined design maintains the integrity of the ETBU brand while offering flexibility for various applications. The text remains typeset in Trajan Pro, ensuring continuity in the University's visual identity. The removal of the shield emphasizes the strength and recognition of the ETBU acronym on its own while preserving its connection to the institution. In select contexts where the full University name is already understood or where visual simplicity is prioritized, the ETBU acronym may be used alone, without "East Texas Baptist University" beneath it.

Clear Space and Minimum Size

The University Shield must have clear space equivalent to 1/3 the size of the width of the emblem. The minimum allowable size for the shield is 0.25" in width.

ETBU Seal

ETBU Seal

The ETBU seal is an important part of the college's heritage, noting its longstanding commitment to truth (veritas), Christian ideals (mores), and knowledge (scientia). Any other usage of the seal must be approved by the Office of Marketing and Communication.

The University Seal requires clear space equal to one-quarter of the size of the mark on all sides. To ensure legibility, the seal should never be used at a size smaller than 0.5" square.

ETBU Spirit Logo

ETBU Spirit Logo

The ETBU Spirit logo is a modern representation of East Texas Baptist University. Featuring the prominent “ETBU” lettering in a strong, athletic-style typeface, this logo embodies school pride, tradition, and excellence. Below the “ETBU” typography, “East Texas Baptist University” is displayed in a refined serif font. This combination of fonts and colors conveys a balance of strength and sophistication, making the ETBU Spirit logo a key element in ETBU’s visual identity.

Clear Space and Minimum Size

The ETBU Spirit logo should be surrounded by clear space equal to one-half the height of the ETBU lettering. This mark should not be used at a size smaller than 1.25” in width.

ETBU Brand Colors

The two primary colors for the ETBU brand are ETBU Navy and ETBU Gold. These colors will be used in all branded materials, with gold serving as an accent color. The primary palette is intentionally limited so as not to dilute the brand visuals and ensure that marketing pieces are immediately recognizable as East Texas Baptist University.

The secondary palette provides two alternative blue tones that support the primary colors. Use these sparingly in comparison to the primary palette.

Visual Identity System

The ETBU brand is extended through the visual identity system in several key pieces that communicate on behalf of the University in frequent, official capacities. Stationery, in particular, plays an important role as members of the University represent the institution when interacting with the external public.

Letterhead

The letterhead features a watermarked implementation of the shield in ETBU Navy but otherwise maintains 0.5" margins on the top and bottom and 1.25" margins on the left and right. It includes direct contact information along the bottom of the page, including the University address and direct phone line alongside the University web address. Recommended top and bottom margins for letter content are 2", and body copy should use Arno Pro typeface or similar system font.

Envelope

The envelope features the primary ETBU logo, main campus address, and two primary brand colors. The logo is placed 0.5" from the left of the piece and where the lettering of the acronym lands 0.5" from the top of the piece.

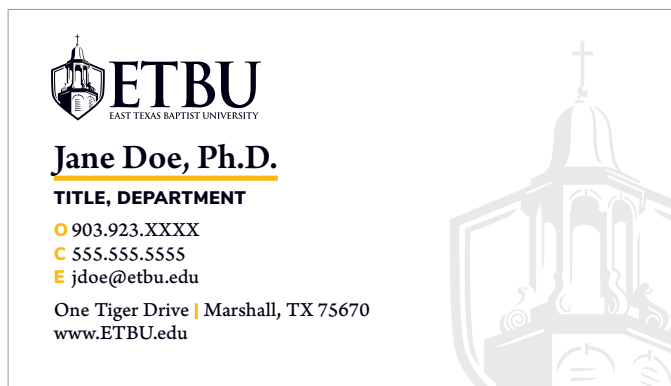

Letterhead

Office or department-specific letterhead can be created by adding a 1pt gold vertical divider to the right of the primary logo and the office or department name. This should be set in Arno Pro Semibold and Arno Pro Italic (for words like “of, for, and”) 12/13 pt. The name should break into two lines if 4-5 words or longer.

Envelope

The envelope can be made to match the letterhead by including the office or department name at 9/10pt.

Business Card (General)

The business card front will contain the direct contact information. The name will be presented using 14 pt. Arno Pro, with the title in 7 pt. Nunito Sans Black. The only additional information on the card front should be the University address, direct phone line, email address, and University webpage. Cards created for B. H. Carroll Theological Seminary faculty and staff will include the B. H. Carroll primary logo on the card back.

Any deviation from this general format requires approval from the Office of Marketing and Communication.

Business Card (Athletics)

The business card front will contain the direct contact information. The name will be presented using 12 pt. Bebas Neue Pro SemiExpanded ExtraBold, with the title in 8 pt. Bebas Neue Pro regular. The card should include the University address, direct phone line, email address, and Tiger Athletics webpage.
