

In the past few weeks the University family has faced unprecedented challenges. In recognition of these challenges, undergraduates will have the opportunity to change any of their spring course grades to Pass/Pass D/No Credit once all grades have been entered.

- At the end of the spring 2020 semester, faculty will submit course grades based upon the grading scale in their syllabi. No changes here.
- Any course is eligible to be converted to Pass/Pass D/No Credit based on student election.
A grade of A, B, or C can be changed to Pass.
A grade of D can be changed to Pass D.
A grade of F/XF can be changed to No Credit.
- Courses for which Pass/Pass D/No Credit is earned by the student will not count toward GPA calculations. Please note that some course prerequisites and degree progression standards require a specific grade — for example, a “C” — for progression. The University will allow a grade of “Pass” to satisfy these requirements. However, a grade of “Pass D” at the end of the spring 2020 semester will not allow a student to progress forward for courses that require a “C.”
- We strongly encourage students, who are seeking licensure/admission to professional program (teacher education) or graduate school to have serious conversations with their respective dean, academic advisor, and/or department faculty regarding implications for future plans. A “Pass” may not be sufficient for admission or qualification for these programs. Students preparing for or in the nursing program will remain in their current letter grading system and are required to meet with their advisor if they choose to convert a course to Pass/Pass D/No Credit to discuss implications for acceptance into or progression in the nursing program.
- Graduating Seniors will have between May 12 - May 15 at 5 p.m. to identify those courses for which they would like to convert their assigned grade to a Pass/Pass D/No Credit.
- All other undergraduate students will have between May 12 and May 22 at 5 p.m. to identify those courses for which they would like to convert their assigned grade to a Pass/Pass D/No Credit.
- Faculty will submit all grades including graduating seniors on Monday, May 11 at Noon according to the grading scale in their syllabi.
- While GPA may not be affected this semester should a student chose to apply this policy, progress toward a degree will be impacted when students receive No Credit and may impact a student’s academic or financial aid standing.
